

CHANGE TO UAA MODEL RULES REGARDING EXTENSION OF CPA EXAM SCORE CREDIT:

“The UAA Model Rules, which were recently amended, have no immediate effect on state board rules. NASBA, as the membership organization of the 55 U.S. Boards of Accountancy through its Uniform Accountancy Act Committee, provides the Model Rules as recommendations to boards for adoption where uniform adoption is encouraged.

Although the Kansas Board of Accountancy has voted to adopt the score extension from 18 months to 30 months from the date NASBA releases the exam scores, the existing rules remain in place until such time as the Board can promulgate, adopt, and amend those changes, and such changes become effective.

We will keep you posted. If you have any questions, please contact Susan Somers, Executive Director of the Board, at susan.somers@ks.gov
